

# Come Check Out Madison's "Tech Team"

So, you're kids on the Tech Team...

Sugar OS

As a member of Madison's Tech Team, your child has been working on some fun computer projects in a new software operating system designed for kids called Sugar (sugarlabs.org). The Tech Team was established in Fall 2010 in partnership with the English and Computer Science Departments at North Dakota State University.

This afterschool activity, using Sugar, encourages kids to use the computer in a smarter way by introducing them to basic computer procedures, while having fun at the same time!

Come see your kids in action on Tues., 12/06 @ 3pm!

Parents, we'd like you to be a part of this goal to help your kids have a head start with computer literacy skills and learn more about the project, so you are invited to help them with their latest adventure, using Turtle Art.

We understand if you can't make it, but we want you to know that **they have access to Sugar on the green USB drive** that will be given to all of the students at Madison in the Spring.

To learn more about our project, please visit our project website at [fargoxo.wordpress.com/createlandingpage/](http://fargoxo.wordpress.com/createlandingpage/), or contact us via phone.

**When:** Tues., 12/06. 3pm-4pm

**Where:** Madison's Art Room

**Who:** Chris Gast, Tech. Director (Madison); Dr. Kevin Brooks (NDSU); Chris Lindgren (NDSU); Matt Warner (NDSU)

**Questions?** Contact either Mr. Gast at [phone] or Dr. Brooks at [phone].
